# ABOUT US

---

*Midiofa Group is a leading general contractor specializing in providing comprehensive solutions across various sectors,*

including electrical installations, building construction, factory setups and mechanical installations. With a commitment to excellence, we have built a strong reputation for delivering high-quality projects on time and within budget.

Our team of experienced professionals is dedicated to ensuring that every project is executed with precision, safety and efficiency, meeting the unique needs of each client.

At Midiofa Group, we pride ourselves on our ability to handle complex projects, from planning, design to construction and maintenance, while adhering to the highest standards of quality and compliance.

# OUR VISION

---

*To be a trusted leader in the  
general contracting industry*

by consistently delivering reliable, innovative and sustainable solutions that exceed client expectations.

We strive to set the standard for quality, safety and professionalism in every project we undertake, fostering long-term relationships built on trust and integrity.

# OUR SERVICE

*At Midiofa Group, we provide a wide range of general contracting services designed to meet the needs of various industries. Our team is equipped with the expertise and resources to deliver reliable and efficient solutions for every project phase, from initial planning to final execution.*

**Electrical Installations** | We offer comprehensive electrical contracting services, including power distribution, lighting systems, control panels and industrial automation. Our experienced electricians ensure safe and efficient installations, adhering to industry standards and regulations to guarantee quality and reliability.

**Building Construction** | Our construction services cover the complete building process, from design and engineering to construction management and completion. We specialize in industrial, commercial and institutional projects, delivering robust, durable structures that meet the highest safety and quality standards.

**Factory Setup** | Midiofa Group provides specialized services for setting up new factory operations or upgrading existing ones. Our expertise includes the installation of production lines, heavy machinery and factory equipment, ensuring smooth and efficient operational workflows tailored to your specific needs.

**Mechanical Installations** | We handle a broad spectrum of mechanical systems, including HVAC, piping, plumbing, and machinery installation. Our team focuses on precision and seamless integration, ensuring that all mechanical components operate efficiently and contribute to the overall productivity of your facility.

**Civil construction** | Site preparation, foundation work, structural engineering and infrastructure development are all included in the comprehensive civil construction services provided by Midiofa Group. Our staff has the capability of maintaining the highest standards of efficiency, safety and durability throughout the building process.

# ELECTRICAL & INSTRUMENT

With the equipment and manpower we experienced, we are the partner you can count on if you want to build a network of electrical medium voltage, low voltage or electricity networks underground cables to scale housing, apartments, real estate, high buildings and industry, government and non-governmental.

## **SPECIALIZATION OF WORK**

- Medium voltage installation (cable, panel MV and protection)
- Panel MV, LVMDDB, lighting panel Installation
- Transformer installation
- Cable ladder/Tray Installation
- Conduit and cable installation
- Motor and instrumentation Installation
- Lighting Installation
- Panel control installation

# MECHANICAL INSTALLATION

To produce good quality results from Mechanical work packages of a project, the necessary communication, technical understanding as well as project management integrated in finding solutions to the problems faced. We have years of experience years and has a solid team and integrated. We are committed to providing the highest caliber of work for any job we take on.

## **SPECIALIZATION OF WORK**

- Equipment installation
- Pipe/ Plumbing installation
- Cooling system installation
- Hydrant system installation

# GENSET INSTALLATION

We are engaged in installation services of genset and manufacturing of solar tanks, silencers, panels, cages, silent boxes, trailers and sound attenuator. Kami specialist maker of soundproof generator set and generator installation service of 10 kva s.d 2,500 Kva from various brands generator. We serve reservations throughout the region of Indonesia equipped with experienced technicians and certified in their field.

## **SPECIALIZATION OF WORK**

- Panel Synchronous Generator
- Genset Installation
- Genset Automatic Panel (AMF/ATS Genset Panel)
- Making Sound-Proofing Genset
- Making Exhaust Genset

# PLUMBING INSTALLATION

Plumbing system is a part that can not be separated in building construction. Plumbing system for the provision of clean water in this building includes clean water supply system, clean water installation, clean water demand calculation which includes knowing the estimated number of occupants, knowing the water usage in a day, and knowing how much water use.

## **SPECIALIZATION OF WORK**

- PPR Plumbing Installation
- PVC Plumbing Installation
- Waste water system installation
- Repair or replacement existing installation

# HYDRANT SYSTEM

In making a building or a house, the Fire and Hydrant electrical installations should be taken care of. Moreover, if there is a hydrant system there, the components in the hydrant system such as control panel, jockey pump and main pump requires a strong flow of electricity to work well to stabilize the water pressure in the installation hydrant. So if there is a problem in the electrical installation the pump can not work properly to drain the pressure water, consequently if a fire event occurs then the handling of fire can not be done optimally.

## **SPECIALIZATION OF WORK**

- material supply and installation The main fire Hydrant Fire system equipment structure includes Electric Fire Pump, Diesel Fire Pump and Jockey Pump complete with control panel, Hydrant Box, Hydrant Pillar and its piping
- installation of valve-valve from installation / plumbing system in each building according to the stages of construction of the building.
- Installation of the system Electrical installation from the power panel to the control unit unit of the Fire fighting unit and each pumping device.

# HVAC/COOLING SYSTEM

The heating and cooling system is one of the most complex systems that can be found in a home. It's essential that the HVAC service provider you hire is well-trained to deal with the inherent safety issues in heating systems - electricity, natural gas, oil - or cooling units that use toxic refrigerants such as Freon.

An HVAC contractor will play a crucial role in your home's comfort, air quality and safety. Consider these steps when making your hiring decision.

## **SPECIALIZATION OF WORK**

- Chiller installation
- HVAC unit installation
- Ducting Installation
- Split AC installation
- Material supply

# FIRE ALARM SYSTEM

To provide protection and anticipate the existence of fire hazard required Fire Alarm System For Hospital Hotel Hotel Building. Once the objectives of fire protection are understood and become an agreement the minimum protection standards are tailored to the building code, insurance requirements and other relevant authorities. Fire alarm design can provide detailed and specific warning. The installation standard refers to NFPA 72, this standard is a standard and widely used.

## **SPECIALIZATION OF WORK**

- Sensor alarm Installation
- Programing panel addressable
- Repair fire alarm
- Material supply

# MEP HIGH RISE BUILDING

We have more than years of expertise and proven track record of successful completion of various fast tracks and High Rise Building Projects, which includes Supply, Installation, Testing, Commissioning, Maintenance and Warranty Services of MEP Building Services such as HVAC, Plumbing and Drainage, Fire Protection, Electrical, Extra Low Voltage Systems and Building Management Systems (BMS).

We have the technical caliber of undertaking substantial MEP projects of any nature as well as undertaking maintenance contracts of electro-mechanical installations.

## **SPECIALIZATION OF WORK**

- Electrical & Mechanical instalation
- Hydrant System & Fire Alarm system instalation
- Sound System & MATV Instalation
- Network Computer Instalation
- PABX-Telephone Instalation
- Lighting & Installation
- Genset, ATS, AMF, UPS Instalation
- Panel Maker & Installation
- HVAC/MVAC & Cooling System Instalation
- Plumbing Instalation
- SMART Building Management System
- Power system Management VIA Android & Computer
- Lightning Arrester Installation

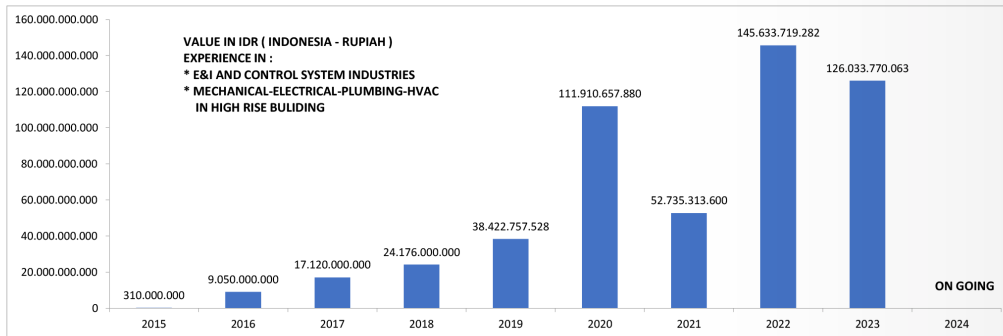

# OUR CLIENT

---

Based in Gresik, East Java, Midiofa Group has established itself as a trusted partner for numerous companies across the region. Our strategic location allows us to efficiently serve businesses in Gresik and its surrounding areas, including Surabaya, Sidoarjo and other parts of East Java. Over the years, we have had the privilege of working with a wide range of clients. From small enterprises to large-scale industrial facilities.

Our clients span various sectors, including manufacturing, logistics, petrochemicals and more. Reflecting our ability to handle diverse projects with varying degrees of complexity. Many companies choose Midiofa Group for our proven expertise, timely project delivery and tailored solutions that align with their operational goals. We prioritize building long-term relationships through trust, quality service and consistent communication, ensuring that every client's needs are met with precision and care.
